Loadout begins at the ranch, immediately following the auction on Monday, November 19. Loadout continues, sunrise to sunset through Wednesday, November 21. All animals must be removed by Wednesday, November 21.

Facilities available onsite for vaccinating and testing at buyer's risk and cost. Seller guarantees a healthy animal on your truck/trailer or into the working chute if testing required. Not responsible for accidents. If accident or injury occurs in the handling facilities while animals are in for additional testing after purchase, the new buyer assumes all risk, liability and loss. All sale buffalo have received 7-way and injectable Ivermectin. Heifer calves are non-OCV.

**Auctioneer's Note:** The Brownotter/Jet Buffalo Ranch is the best kept secret in the industry. Ron has direct access to herd bulls from Teddy Roosevelt, Wind Cave, Badlands and other National Park herds, making their buffalo one of the most genetically diverse herds in the nation. These quality calves/yearlings run on an abundance of native grass, truly in the heart of buffalo country.
